Other Outcomes/Objectives, with Any Associations and Related Measures, Targets, Findings, and Action Plans

O/O 1: Rate of non-senior participants
Increase secondary school persistence rate of non-senior participants served each project year

Related Measures

M 1: Staff collects the final report cards and/or transcripts of each participant
Annually, the project staff collects the final report cards and/or transcripts of each participant to determine the pass and/or failure rates
Source of Evidence: Administrative measure - other
Target:
At least 67% come from low-income and first generation families and 80% of non-senior participants will have completed their current academic year and continued in school for the next academic year at the next grade level

O/O 2: Increase secondary school graduation
Increase secondary school graduation (regular secondary school diploma) rate of seniors served during the project year

Related Measures

M 1: Staff collects the final report cards and/or transcripts of each participant
Annually, the project staff collects the final report cards and/or transcripts of each participant to determine the pass and/or failure rates
Source of Evidence: Administrative measure - other
Target:
At least 80% of seniors will graduate with a regular secondary school diploma within the standard number of years

O/O 3: Increase secondary school graduation (who completed a rigorous secondary school program of study)
Increase secondary school graduation (regular secondary school diploma) rate of seniors served who completed a rigorous secondary school program of study during the project year

Related Measures

M 1: Staff collects the final report cards and/or transcripts of each participant
Annually, the project staff collects the final report cards and/or transcripts of each participant to determine the pass and/or failure rates
Source of Evidence: Administrative measure - other
Target:
At least 6% of seniors will graduate with a regular secondary school diploma within the standard number of years who completed a rigorous secondary school program of study

O/O 4: Increase the postsecondary enrollment rate
Increase the postsecondary enrollment rate of participants who have graduated with a regular secondary school diploma during the project year

Related Measures

M 2: Staff collects college admission letters and financial aid award information for documentation
Annually, project staff conducts workshops covering college exploration, financial aid, taking entrance exams, seeking disability services, career exploration, field trips to area colleges and universities, parent involvement, and assist in filling out the necessary forms for college entry and financial aid. Staff collects college admission letters and financial aid award information for documentation.
Source of Evidence: Administrative measure - other
Target:
At least 65% of participants who graduated with a regular diploma during the project year will enroll in an institution of higher education by the fall term immediately following high school graduation or be accepted but deferred enrollment until the next academic term

O/O 5: Increase post-secondary attainment rate of participants served
Increase post-secondary attainment rate of participants served during the project who enrolled in an institution of higher education and completed a program of postsecondary education within six years

Related Measures

M 3: Track performance at the end of the year
The project staff notifies participants who are in an institution of higher education at the end of each semester to check progress and if they need to be referred to academic assistance programs at the institution or in the community. We use the National Clearing House to track performance at the end of the year.
Source of Evidence: Administrative measure - other
Target:
25% of participants will have completed a program of post-secondary education within six years. They are still
matriculating in an institution of higher education.
