Student Learning Outcomes

College of Science
B.S. in Psychology

1. The department’s undergraduate majors will attain a broad based knowledge of the field of psychology.

2. Undergraduate majors will be proficient in the production and communication of empirical research. Graduates will be able to design a data collection strategy, collect and analyze data, and write a report of the findings in APA format.

3. The department will produce undergraduate majors who have focused training in psychology across 3 areas defined by American Psychological Association guidelines as core to undergraduate training: 1) Developmental; 2) Clinical, Abnormal, and Personality; 3) Sensation Perception, Physiology, & Comparative.
