Articulation Agreement
Southern University at New Orleans
And University of New Orleans

Preamble:

Per Senate Bill No. 266 Act No. 419

PART III-A. POSTSECONDARY EDUCATION DELIVERY SYSTEM FOR THE NEW ORLEANS REGION

§3241. Legislative intent: goals

A. It is the intent of the legislature that a comprehensive, integrated regional delivery system be provided for the delivery of public postsecondary education services in the New Orleans region which system will:

(1) Provide a world class educational environment that will meet the academic needs and interests of every student, while providing each student with the support, assistance, and guidance necessary to attain his or her educational goals and aspirations.

(2) Ensure that students who are academically underprepared are provided the educational resources they need to have a reasonable chance for success in their academic pursuits.

(3) Raise the educational attainment of the population, improve the quality of life, and contribute to the economic well-being of the New Orleans region.

(4) Make better use of facilities, faculties, and other academic and fiscal resources associated with the public postsecondary institutions in the region.

Strategy:

Since it is incumbent upon the institutions of higher learning in the State of Louisiana and the City of New Orleans to serve their clients in an efficient manner, and,

Since higher education budgets are limited and imaginative methods must be found to maximize state funding without affecting quality, and,

Since cooperation between Southern University at New Orleans (SUNO) and University of New Orleans (UNO) will underscore for the State of Louisiana the importance of interactions between the two universities, therefore:

SUNO and UNO do hereby agree to:
1. Review all academic programs at both institutions with a view toward the articulation of programs leading to an Engineering baccalaureate from UNO.

2. To all SUNO students who meet the transfer admission requirements of the College of Engineering, UNO will guarantee placement at the junior level and accept all coursework that meets the transfer coursework criteria.

3. SUNO and UNO will form a committee whose primary goal will be to promote new cooperative academic programs within Engineering.

4. Each campus will have a section in their catalog that specifies Articulation Agreements in general including the SUNO-UNO Engineering Articulation Agreement.

5. Each campus will communicate announcements of certain major events to the partner institution.

6. Faculty members selected from the respective department chairs of each institution will hold a joint meeting once a semester.

7. Each campus will strive to find other areas of cooperation that will strengthen the ties of the two institutions so that they might better serve the State of Louisiana.

Signed and agreed to this 8th day of May, 2013.

Dr. Victor Ukpolo – Chancellor
Southern University at New Orleans

Dr. Peter J. Fos, President
University of New Orleans
