Student learning outcomes (SLO’s) for each academic program will be published in the Catalog and on the website. The purpose of this initiative is to improve student access to information, ensure consistency across programs, and achieve compliance with related SACS standards.

Each program has already identified SLO’s for IE planning and assessment purposes, but this is an opportunity to consider what information you would like published for public consumption. Upon completion of the program, what will students have learned?

Please select one of the following options and list student learning outcomes below as you would like them to appear in the Catalog and on the website.

☐ Option 1: Keep the same 3-5 SLO’s already identified in the IE plan

☐ Option 2: Add one or more additional SLO’s to focus on an area of interest

☐ Option 3: Align the SLO’s with program accreditation requirements
