University of New Orleans

Detailed Assessment Report
2013-14 Civil and Environmental Engineering
As of: 4/10/2014 12:04 PM CDT

Strategic Plan Goals

SP Goal 1: High quality faculty and instruction
Provide a highly qualified faculty to teach courses in undergraduate and graduate programs for civil and environmental engineering. Provide quality instruction using full time and part time faculty with appropriate degrees and expertise in the subject material for all Civil and Environmental Engineering courses.

SP Goal 2: Secure program support
Secure program support through grants and contracts, and serve as members of graduate degree examination committees

SP Goal 3: Graduate exam committees
Serve as members of graduate degree examination committees

SP Goal 4: Professional development
Participate in professional activities to enhance personal development and to enhance the reputation of the Department of Civil and Environmental Engineering

SP Goal 5: Serve non-traditional students
Support the urban mission of the university with special emphasis on serving non-traditional students

SP Goal 6: Improve customer service and student retention
Improve customer service and student retention

Detailed Assessment Report
2013-14 Electrical Engineering
As of: 4/10/2014 12:04 PM CDT

Strategic Plan Goals

SP Goal 1: Upgrade labs and software
Upgrade/maintain Electrical Engineering laboratories and software

SP Goal 2: Enhance visibility and reputation
Enhance the department’s visibility and reputation

Detailed Assessment Report
2013-14 Mechanical Engineering
As of: 4/10/2014 12:04 PM CDT
Strategic Plan Goals

SP Goal 1: Provide high quality undergraduate educational programs
The department will provide high quality educational programs and learning experiences for undergraduate students in the Mechanical Engineering Bachelor of Science program.

SP Goal 2: Provide high quality graduate educational programs
The department will provide high quality educational and research programs and learning experiences for graduate students to support the M.S. and Ph.D. programs in the College of Engineering.

SP Goal 3: Community outreach
The department will be committed to community outreach and will provide educational opportunities consistent with the needs of regional industries.

Detailed Assessment Report
2013-14 Naval Architecture and Marine Engineering
As of: 4/10/2014 12:04 PM CDT

Strategic Plan Goals

SP Goal 1: Provide high quality undergraduate educational programs
The School of NAME will provide high quality educational programs and learning experiences for undergraduate students in the BSc in Naval Architecture and Marine Engineering Program

SP Goal 2: Strengthen community/industry research ties
The School of NAME will strengthen its research ties with industry and community

SP Goal 3: Increase graduate recruiting
The School of NAME will contribute to increasing UNO’s graduate student population and outreach to professional community
