

## HOW TO READ AND USE THE TRANSFER GUIDE

All courses appearing on this list transfer to the University of New Orleans. Some have exact equivalents to UNO courses. Where that is the case, the corresponding UNO department and course number appear under the heading **UNO DEPT/COURSE #**. In the instances where the transfer course does not have an exact equivalent at UNO, the transfer course title is printed under the heading **COURSE** and the UNO department accepting the course can be found under the **UNO DEPT/COURSE #** column. Listed with the department will be the academic level of the course followed by **NE** (no equivalent).

For example, **MATH 1000NE** indicates that the course is freshman level and there is no equivalent to a UNO course. Sophomore, Junior, and Senior levels are indicated with **2000NE**, **3000NE**, **4000NE**.

There are other **Course Codes** that appear in this list. The **NR** code used with **1000NR** means that the course is remedial and cannot be used to satisfy degree credit at UNO. **PFE** means the UNO department accepting the course requires that the credit for that course be validated by a proficiency exam prepared and administered by the UNO department. **NMC** means that the course is a non-majors course. **1/2, 2/2**, etc. means that more than one transfer course must be taken and passed in order to receive credit for the one UNO course indicated. For example, if the transfer school offers a two semester Principles of Accounting course, both courses must be taken in order to receive credit for Accounting 2100 at UNO.

Please note that the academic dean of your major department at UNO **will determine the extent to which transfer credits**, even if they have an exact UNO equivalent, **will be applied toward your degree at UNO**.
